ABOUT US

Aditya Industries was established in year 1986 in Mumbai under the Leadership of Hemant Kirtilal Master. Since then company has crossed many milestones from a small premises in Mumbai suburb of Dahisar to state of the art facility in Union Territory of Dadra & Nagar Havell.

Presently group is manufacturer of wide range of plastic extruded products under brand name of PENGUIN® used in various sector like Cable Management, Construction, Shipping, Pneumatics, Furniture and Agriculture. From only manufacturing the group has entered service sector like indenting of Polymers & Chemicals and also ventured into next generation UPVC Windows fabrication & installation.

We have always worked towards improvement of our products and believe that perfection is a myth and only thing constant is change. There is always scope of improvement in everything and this policy has been one of the major contributors to our growth story.

We attribute our success not only to our hard work and perseverance the credit also goes to constant support and inspiration from our Customers, Suppliers and Well-wishers world wide.

We feel future is always bright, by keeping the principles and policy in already set. And with vision and aspiration of new generation we believe that we will cross many more boundaries and reach many greater heights.

REINFORCED HOSE PIPE

Penguin® Reinforced Hose Pipe is designed for high pressure application. It is perfect replacement for conventional rubber braided hose. Penguin® Reinforced Hose Pipe is made by high quality plastic (PVC) by using high end plasticizer reinforced with high tenacity synthetic yarn in both crosswise and lengthwise.

Our products are made of best quality controls. Penguin® Reinforced Hose Pipe is available in various grade and colour used for different application like pneumatic, spray painting, agriculture, gardening hose, sanitary, fire fighting etc.

**The inner diameter sizes available are as following
6mm, 8mm, 10mm, 12mm, 16mm, 19mm, 25mm, 32mm, 38mm and 50mm**

**Length Available
30 meter, 50 meter and 100 meter**

PP ROPES

Penguin Rope is made from quality virgin material we have state of the art extrusion and twisting facility.

We manufacture two kinds of rope namely Danline and Filament.

Dan Line Rope

Features

It is superior quality, flexible, strong and durable. It is Ideal for manufacturing, transport, communication, construction, recreational and entertainment industries. It has UV resistance for longer life and is suited for outdoor applications.

Applications

Used in anchor & dock lines, Tarpaulin, Ship Building, Pipe coating Industry, Concrete block binding Industry (for oil fields), Stevedoring, Optical fiber sub duct (cable pulling), Electrical heavy cable pulling, Recreational, entertainment and sporting applications.

Availability:

3 Ply, 4 Ply, 6 Ply and 8 Ply

Filament Rope

Features

Filament Rope has the property of minimal water absorption, Floats on water, Controlled Elongation
Light Weight & easy handling Inert to Chemicals

Applications

Mooring, Towing, Sea culture, Pool markers, Goods handling, Vessels, Construction, Port handling, Oil Exploration Industry

Availability:

3 Ply, 4 Ply, 6 Ply and 8 Ply
